**OPERATION**

**TEACH Tutorial/Manual Database**

Provides illustrated alerts for each type of signal.

**Promise set**: within 3-5 seconds.

**Display Location**: NO1.

**Press Dark button to exit.**

**Alert Priority**

Alerts are issued in this order when a signal is detected, the laser will override the K band.

1. Ultra Lyte
2. Vascar
3. Aircraft

**Safety Warning System**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**Ready**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**Reset**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**FOCUS Detection**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**Alert Type**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**System**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**Display**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**SYSTEM**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**Maintenance**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**Service Under Warranty**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**Vehicle Battery Saver**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**Service Record**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**Warning**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**WARNING**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**Troubleshooting**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**Care and Maintenance**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**Warranty Information**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**Lasers**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**FCC**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.

**Specifications**

- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
- Provides a simulated alert for each type of signal.
Dear Whistler Customer,

If you have questions concerning the operation of this Whistler unit, please call 1-800-247-9030 (toll-free)
Customer Service
Monday–Friday 8 am-5 pm Pacific Time
whistlergroup.com

Please keep this receipt in a safe place. You may register your product online at www.
whistlergroup.com for warranty verification purposes, a copy of your dated receipt must still accompany any unit sent in for
warranty work. If the unit is returned without a dated store receipt, an out of warranty service charge applies. Note: Your warranty period begins at the time of purchase. The warranty is validated only by the date on the receipt. Please record the serial number of the unit in the space provided on page 27 of this manual.

To fully acquaint yourself with the operation of your Whistler detector and to better understand the differences between detecting radar, laser, and safety radar signals, we recommend that you read the entire manual or visit our F.A.Q. page on our website www.whistlergroup.com.

Enjoy your Whistler detector and drive safely.

Sincerely,
The Whistler Group, Inc.

### FEATURE DESCRIPTIONS

*Bracket Release Button - provides quick release of bracket from windshield.
*Speaker - provides distinct audio warnings.
*Display - provides quick marking bracket location.
*Radar - compact, high-efficiency antenna receiver radar signals.
*Front Laser - high gain optical laser provides increased sensitivity and field of view for front edge laser receiver.
*Other Speed Detection Systems - includes integrated radar, laser, and safety radar detection systems.

### SPEED SELECTABLE AUTO QUIET

1. Power: Press and hold the Power Button for greater than 2 seconds to turn the unit on/off.
2. Speed: Press and hold the Speed Button for greater than 2 seconds to turn the unit on/off.
3. Silent: Press and hold the Silent Button for greater than 2 seconds to turn the unit on/off.
4. Radar: Press and hold the Radar Button for greater than 2 seconds to turn the unit on/off.
5. Laser: Press and hold the Laser Button for greater than 2 seconds to turn the unit on/off.
6. Speed Selectable Filter Mode
7. Filter Options
8. Filter Modes
9. Voice: Press and hold the Voice Button for greater than 2 seconds to turn the unit on/off.
10. Time Display: Press and hold the Time Display Button for greater than 2 seconds to turn the unit on/off.
11. Display: Press and hold the Display Button for greater than 2 seconds to turn the unit on/off.
12. Dim/Dark Mode
13. Alert Periscopes

### FEATURE DESCRIPTIONS

1. GPS Antenna - provides traffic camera alerts.
2. Power Cord - connects the unit to a vehicle's power source.
3. Power Jack - provides connection for the vehicle's power source.

### INSTALLATION

1. Windshield Mounting
2. Install the suction cups and rubber bumper onto the windshield and press against the glass.
3. Press the suction cups against the windshield at the location you have chosen.

### INSTALLATION

1. Windshield Mounting
2. Install the suction cups and rubber bumper onto the windshield and press against the glass.
3. Press the suction cups against the windshield at the location you have chosen.

### INSTALLATION

1. Power Cord Connection
2. Plug the small end of the power cord into the unit's power jack.
3. Plug the large end into the vehicle's cigarette lighter socket.

### Note:

This unit's tiny traffic detector. When installing the unit, make sure the face of the detector is clearly visible. The USB card exchange is safe, simple, and secure. The USB card is not readable or writeable. If you lose the card, you may still be able to operate the unit. Whistler's Three Stage City Mode is designed to reduce false alerts. City/City 1/City 2 Mode provides increased sensitivity and field of view for City/City 1/City 2 Mode.
